QAYUMOV JAVOHIR
BACKEND DEVELOPER

ABOUT ME

I was born in 2002 in the Surxondaryo region. I am currently a student at the Tashkent University of Information Technologies, having entered in 2020. From January 2024 to October 2024, I studied Backend Node.js at the Najot Talim training center located in Tashkent. During this educational process, I learned many modern technologies and expanded my knowledge in the field of programming.

EDUCATION

TASHKENT UNIVERSITY OF INFORMATION TECHNOLOGIES
2020-2024 YEARS

NAJOT TA'LIM XADRA BRANCH
2024 YEAR
Backend Developer (Node.js)

HARD SKILLS

- JavaScript
- Node.js
- Express.js
- EJS
- Telegram Bot
- Git
- GitHub
- GraphQL
- WebSocket
- MongoDB
- PostgreSQL
- Sequelize
- Prisma
- Redis
- RESTful AP
- JWT
- OAuth
- TypeScript
- NestJS
- TypeORM
- Docker
- Microservices
- Bootstrap
- Technical Documentation
- Problem-Solving

Soft Skills

- Effective Communication
- Critical Thinking
- Public Relations
- Teamwork

LANGUAGES

- English: Intermediate – While I may not be fluent in speaking English, I possess the ability to find and utilize the necessary information.

PROFILE SUMMARY

I am a passionate and eager young backend developer focused on problem-solving. I am expanding my programming knowledge by learning Node.js and other modern technologies. I am looking for opportunities to enhance my experience in new projects and further develop my skills. Let's create innovative solutions together and meet the technological needs of businesses. Let's grow together.

PROFESSIONAL SUMMARY

- I am a beginner developer with a strong passion for learning technologies. I strive to improve my skills in backend development and have successfully completed several small projects based on Node.js. I focus on creating applications and optimizing their performance using the skills I have acquired.

Research Experience

- During my learning process, I conducted research to explore new technologies and programming languages, focusing on identifying consumer preferences. These experiences helped me gain valuable insights for developing new projects and products.
- Additionally, I carried out theoretical research on creating engaging content and managing branding for various platforms. This process helped me ensure consistency and relevance.

Skills and Knowledge

- I possess knowledge and skills in backend development using Node.js. While I lack practical experience, I am eager to grow and have a strong passion for programming. I have learned the relevant skills and am ready to apply them in real-world projects.
